

KEY OBJECTIVES : Numeracy : Year 2 (ages 6-7)

Using and applying Maths

Date Completed

Solve problems involving addition, subtraction, multiplication or division in context of numbers , measures or money.	
---	--

Counting and understanding number

Count up to 100 objects by grouping them and counting in 10s, 5s or 2s; explain what each digit in a two digit number represents; partition two digit numbers in different ways, including multiples of 10 and 1.	
---	--

Find one half, one quarter and three quarters of sets of objects.	
---	--

Knowing and using number facts

Derive and recall all add. and sub. facts for each number to 10, all pairs with totals to 20, and all pairs of multiples of 10 with totals to 100.	
--	--

Know mult. and div. facts for 2, 5 and 10 times tables.	
---	--

Calculating

Add and subtract mentally a one digit number or a multiple of 10 to or from any two digit number; use written methods to add and subtract two digit numbers.	
--	--

Use all of the 4 rules symbols and = to record and interpret number sentences involving all four operations; calculate the value of an unknown number in a number sentence, eg. $30 - ? = 24$.	
---	--

Understanding shape

Visualise common 2-D and 3-D solids; identify shapes from pictures of them in different positions; sort , make and describe shapes, referring to their properties.	
--	--

Measuring

Use units of time and know the relationships between them; read time to the quarter hour and identify time intervals.	
---	--

Read the numbered divisions on a scale and interpret the divisions between them.	
--	--

Handling data

Use lists, tables and diagrams to sort objects; explain choices using appropriate language, including 'not'
