

AM

LITERACY :

1. The word work is based on the endings **-ows**. There are 4 pages of exercises which should take the first 20 minutes of a literacy lesson. The pages look at the other letters that also make the -ows sounds, such as -oes, -os, -ose and -oze.
2. For the second half of a lesson use the '20 Minute Writer' activity , writing about what makes you angry. Give them 10 minutes to plan their work , then 20 minutes to complete their writing. It could be extended by writing a draft copy then re-writing it either on the computer or long hand.

NUMERACY:

1. The Sudoku activities make a fun starter, they must start with the coloured square.
2. The second set of worksheets are not so fun, they are revising the 7 times table ! The 6 pages include money problems as well.

PM

1. The PSHE story, 'Let's Go For a Ride' is a hard hitting story about cycling dangerously. This is based on a true story about a boy who was killed.
2. The Science is about exercise for health. This starts with a science experiment about heart rate and ends with writing about their favourite sport. This could take the rest of the after noon , especially if you finish the day with short presentations about their sport.
